Applicants do not necessarily agree with the Examiner's characterizations and assertions regarding the claims or the allegedly patentably distinct claim groups and species. Although Applicants do not specifically address the various characterizations and assertions set forth in the Office Action, this should not be taken as a manifestation that Applicants subscribe to those characterizations and assertions.

To expedite the prosecution of this application, Applicants provisionally elect to prosecute claim group III, claims 94-108. Applicants further provisionally elect Species 1-1 of Figs. 9-11, and Species 2-1 of Figs. 11, 13B, 14B, 15B, and 15D. The claims of claim group III "readable on" the elected species include claims 94-108.

Applicants respectfully request the examination of claims 94-108.

Please grant any extensions of time required to enter this Response and charge any additional required fees to our Deposit Account No. 06-0916.
